NEW BUSINESS:

Storm washout on Pease Hill- HS Smith publicly commended his crew for going "above and beyond" duty to tend to all the problems caused by the heavy downpours Saturday. One of the biggest problems is the culvert system by Patrick Farrell's house at the bottom of Pease Hill. Superintendent Smith said the crew worked on them at least 5 hours and there is no way to clear them. HS Smith added, "they (culverts) should never have been put in that way". "The only way to clean them is to take them out and stand them up". Mr. Harvey Leidy said that taxpayers money is being spent on trying to fix this "think about what this is costing us". HS Smith said rip-wrap and stone has been put down. The next question is, what can be done from this point? If the culverts have to be taken out does the Town have to re-sod and re-seed? HS Smith would like to know if the Town gave authorization for this project and what direction

the Town Board would like him to take. Councilman Olson said "the Town needs to send a letter to Mr. Farrell explaining what we plan to do and asking him if he has any suggestions as to what to do". HS Smith said that ¾ of our stored materials for paving was used for this washout and new culverts will be needed to repair this properly. Supervisor Bentley said perhaps W.C. Soil & Water could come up and look over the problem, he will contact them tomorrow. Councilman Olson said this will be an expensive job and we will have to relocate funds to do the job necessary. He asked if this could be reimbursable by CHIPS? Supervisor Bentley said "yes". Councilman Higgins said Mr. Farrell could have the culverts cleaned out at his own expense, as they do not conform to the Town's culvert system. Councilman Dooris made a MOTION that the clerk send a letter to Mr. Farrell informing him that the Town will remove the culverts for cleaning unless he takes care of the problem and giving him a time limit to do so, Councilman Olson seconded, all ayes. It is also important to convey to Mr. Farrell that the Town is not responsible for re-building his stonewalls around the culverts, as we have no record of any Town Board authorization for this project.

Authority To Issue Appearance Tickets: Counselor Schachner reported to the Board that all that is needed to empower the Zoning Administrator is the addition of one sentence to Section 17.10 of our Zoning Ordinance. The appearance ticket would be served in person. Mr. Leidy said "it makes sense for the Zoning Administrator to issue the appearance ticket in person, this would show kinship, promote dialogue, and the last chance for a remedial effort.

RESOLUTION NO. 69 OF 2009

Messrs. Higgins & Hill introduced Res. 69 and moved its adoption

Postage Meter- Councilman Dooris reported on leasing a postage machine for annual rate of \$780.00. Discussion followed regarding the fact that you cannot purchase a machine , only lease and this did not seem cost-effective. Councilman Dooris will check into it further.

Landfill- Councilman Olson reported that he spoke to Landfill Supervisor Bob Hayes regarding some concerns Mr. Hayes has. First concern is the compactor at the landfill, it is over 30 years old and they no longer make parts for it. Mr. Hayes suggests the Town start putting aside money for the eventual replacement. Also, Waste Management mistakenly left a container by the metal pile and now it is full of an assortment of metal, mattresses and "stuff". Councilman Olson said that under no circumstances should Bob Hayes climb into the container to check what is in there. Councilman Olson said he would work on finding a solution to the situation.

Hill-NO, Higgins-NO, Olson-NO, Dooris-aye, Bentley-NO

The Resolution was defeated and a heated discussion followed. Councilman Dooris said Mr. Doyle had no NYS mandated training in 2008 and has none so far this year. ZA McMeekin asked that Mr. Doyle be given a chance as he is searching for a class. Councilman Higgins said, "this is just head hunting and the energy used could be spent on other things".
